

FORUM PARTNERS | 20 PROGRAM INFORMATION | 23

Our **Forum Partners Program** is both an opportunity to share your organization's brand with thousands across North Carolina and an opportunity to make an investment in our state's future workforce and leadership.

It's a way to make sure that your own employees' children can receive world-class education in our public schools here in North Carolina, and to make sure your state remains a desirable place for the nation's top talent to want to live and work.

It's a statement that your organization believes that ALL children deserve a great education, regardless of their family's wealth or zip code.

ABOUT THE PUBLIC SCHOOL FORUM

OUR MISSION

To provide trusted, nonpartisan, evidence-based research, policy analysis and innovative programs that empower an informed public to demand that education best practice becomes common practice throughout North Carolina.

OUR VISION

All North Carolina children shall have the opportunity to reach their full potential through equitable and meaningful public education that nourishes our state's civic and economic vitality.

For 35 over years the Public School Forum of North Carolina has served as an indispensable and nonpartisan champion of better schools. We bring together individuals and institutions from business, education, nonprofits, and government to study education issues, develop ideas, seek consensus, and ultimately inform and shape education policy. Along with our policy and practice work, the Forum also provides several programs to strengthen education in our state:

DUDLEY FLOOD CENTER FOR EDUCATIONAL EQUITY AND OPPORTUNITY (Flood Center)

Launched in 2020, the Flood Center serves as a hub to identify and connect organizations, networks, and thought leaders who address racial equity, access, and opportunity in education across North Carolina.

NC EDUCATION POLICY FELLOWSHIP PROGRAM (NC EPFP)

NC EPFP is the only statewide program of its kind that focuses on leadership and professional development in the context of education policy. Each new cohort continues the trend of high caliber participants and is rich in its members' range of experiences, both professionally and personally. Fellows come from public schools, universities, community colleges, state agencies, and a diverse array of education organizations across North Carolina.

NC CENTER FOR AFTERSCHOOL PROGRAMS (NC CAP)

NC CAP serves as a catalyst, convener and clearinghouse for afterschool and expanded learning programs across the state. NC CAP works with out-of-school time programs to provide professional development, influence policy, and provide resources to help sustain and nurture these programs that are so vital to the children in their communities.

NC CENTER RESILIENCE AND LEARNING

The NC Center Resilience and Learning is a whole school, whole child framework working with districts and schools across the state to create trauma-informed learning environments that are safer and more supportive for all kids. School staff are trained on the effects of adverse childhood experiences (ACEs) and work with Project staff to implement strategies to better support children dealing with trauma.

Rural Teacher Leader Network (RTLN)

RTLN brings together diverse groups of educators across North Carolina who seek to strengthen their practice, foster community with teacher leaders from across other rural districts, and develop their own leadership capacity in order to guide other teachers in their schools. The network aims to create a strong and lasting community of rural educators with a focus on equity, trauma-informed practice, global education, and teacher leadership.
